2020 SINGLE VINEYARD PINOT GRIGIO

2020 VINTAGE

The further we got into winter, the colder and wetter it became to the past 25-year average. Spring continued in this vein with temperatures cooler than average, and rainfall higher, with the dam filling naturally in late November. December bucked the trend with abnormally high temperatures, five days above 35°C degrees and three days above 40°C and very low rainfall. This mirrored the rest of the country where the drought and high temperatures prevailed throughout Queensland and New South Wales.

We thought we were staring down a very hot, dry summer to come, however, January and February brought generally cooler weather and significantly higher rainfall than normal (112mm more). Furthermore, the season started to lengthen with picking dates extending out as much as two weeks more than has been the norm recently for some varieties.

VITICULTURE & WINEMAKING

Grigio means 'grey' and refers to the skin of this variety having a dusty grey colour. Due to our cooler climate, the Yarra Valley is one of the better locations in Australia to produce Grigio with the same zesty characters as from its origin. The fruit was handpicked to ensure juice contact with the skin is minimal. A cool tank fermentation and constant lees stirring creates an aromatic wine with taste and texture.

TASTING

The aromatics and flavours of honeyed pear and fig are supported by fine natural acidity and a lively, fresh finish.

PAIRING

Try it with antipasti and all types of pasta and seafood.

TECHNICAL

VARIETAL:	Pinot Grigio
CLONES:	D1V7, VCR 5, Entav 457
HARVEST:	25 February 2020
BAUME AT HARVEST:	11.8
pH AT HARVEST:	3.49
TA AT HARVEST:	5.7
